

# Safety Cabinets

## FOR SPECIAL USES

*Keep items secure and safe from unauthorised use!*

**High Security Safety Cabinets** safely store and protect costly fuels or chemicals from tampering or theft. Security system includes 6.4 mm x 51 mm steel bar stock, high visibility barrier bar secured across both doors to deter prying. Padlock lugs on crossbar and side bar channel are located on each side of the cabinet, provide double-layered steel strength, and accept No. 5 Master Locks. Set of two keyed-alike locks are sold separately. Lockable doors with Sure-Grip® handle are designed with a three-point latch for an extra measure of security.

Support brackets are firmly welded to cabinet door for extra tamper resistance.

Contrasting crossbar can be completely removed from the cabinet when not in use.

Forklift pockets are lined with heavy gauge steel and measure 76 mm x 152 mm spaced 737 mm on centre.
