

# Safety Cabinets

## FOR FLAMMABLES

### Store smaller quantities nearby.

When storing smaller quantities of flammable liquids at a work station or adding to existing storage capacities, Countertop and Compac cabinets make it possible to store flammables safely even when available space is at a minimum. Supplied with one adjustable shelf, these cabinets have the same great features of Justrite's larger cabinets.

**Countertop Safety Cabinets** allow increased access to frequently used liquids, without compromising safety. Portable size keeps work areas flexible. An optional wall hanger assembly is available if wall mounting is desired.

**Compac Safety Cabinets** fit almost anywhere and provide protection even where space is at a premium. Only 591 mm wide, they hold a full 45 or 57 litres of flammables. A great size for the home handyman.

### MEETS OSHA & NFPA REGULATIONS

### Expand storage and safely segregate liquids.

**Justrite Piggyback Cabinets** provide additional safe storage for flammables without taking up valuable floor space. Designed to mount on top of Justrite's standard 114 and 170 litre manual or self-closing cabinets, they can also be used singly as a benchtop cabinet or stacked to provide additional storage. Piggyback Cabinets also lend themselves to wall mounting with the purchase of a Wall Hanger Assembly.
